- Full DMS integration
- Bar code and RFID solutions
- Self-scan, guided counts and full inventory counts available
- Custom data & analytics reporting provided after each count
- Supplemental staffing available
- We are a CDK Global Approved Partner

# TOP 10 REASONS TO CHOOSE SELF SCAN

## 1. 30% - 80% IMMEDIATE ROI WHEN USING SELF-SCAN

Many retailers underestimate the total costs that are associated with outsourcing inventory counting. Self-scan provides a counting solution that is easy to implement and improves count accuracy right away.

## 2. CUT COUNT COSTS AND IMPROVE ACCURACY

Self-scan impacts your bottom line by saving you time and labor costs. You could experience a 40% reduction in cost and a 35% reduction in variance analysis just by making the switch.

## 3. REDUCE STORE DISRUPTION

Utilizing your own staff effectively shortens the time your store is offline for inventory counting. Why not use your staff knowledge to make the process more efficient?

## 4. ELIMINATE MANUAL AND INEFFICIENT PROCESSES

Save time and money by cutting through the red tape of traditional inventory count methods.

## 5. FLEXIBLE COUNT SCHEDULING

Plan your inventory count process according to your needs today. Enjoy the freedom of changing your count schedule as your business evolves over time.

## 6. RELIABLE, UP-TO-DATE SCANNERS AND SOFTWARE APPLICATIONS

Datascan's enterprise-grade self-scanning equipment and intuitive software is easy to use, understand and implement into your store, saving you time and effort.

## 7. DECIDE/DETERMINE EXCEPTION REPORTING AND KPIs

Compile and own your data. Self-scan gives you the freedom to handle exceptions according to your policies and define KPIs specific to your needs.

## 8. ACCESSIBLE REAL-TIME COUNT DATA

Monitor live count progress, allowing you to catch and resolve issues in the moment. This ensures control and efficiency throughout the inventory count process.

## 9. UTILIZE YOUR OWN STAFF

Put your inventory in the hands of those who know it best. Your employees already know your merchandise and are familiar with your store operation procedures, minimizing disruption and saving you time and labor costs in the long run.

## 10. CUSTOMIZED REPORTING OPTIONS

The inventory process can produce a substantial amount of data that might not always be used effectively. Self-scan offers the ability to create distinct reports, utilizing the information you have collected during a count. Much more than your DMS provider can provide.
